The Gift of Dyslexia Workshop is an introduction to the fundamental theories, principles and procedures of Davis Dyslexia Correction.

These basic principles and methods form the foundation of the various Davis Programmes for dyslexia, dyspraxia, dyscalculia, dysgraphia and ADD/ADHD.

Training is done with a combination of lectures, demonstrations, paired practice sessions and Q & A.

Each participant will have the opportunity to understand, experience and practice each procedure.

Davis Dyslexia Correction offers real and proven methods which address the root cause of the problem as opposed to band-aid approaches.

Attendance is limited to ensure the highest quality of training.
